## AMENDMENTS TO THE CLAIMS:

The following listing of claims replaces all prior versions and listings of claims in this application.

## **LISTING OF CLAIMS:**

1. (Currently Amended) A mat comprising multiple filling chambers which are in parallel and adjacent to each other, wherein the <u>multiple</u> filling chambers are formed of flexible sheets, a gel-like heat medium is charged into the <u>multiple</u> filling chambers <u>by inserting closely a bag having the heat medium charged therein into each of the multiple filling chambers and sealing the multiple filling chambers, and the <u>multiple</u> filling chambers are expanded by a pressure of the heat medium <u>by providing embosses</u>, each emboss being formed by bonding together predetermined regions of wall surfaces that form one of the multiple filling chambers, the predetermined wall surfaces being opposite to one another and in the vicinity of at least one end of the filling chamber.</u>

## 2. (Canceled)

3. (Currently Amended) The mat as claimed in claim 1 [[2]], wherein an emboss formed by bonding predetermined regions of wall surfaces forming the multiple filling chambers chamber and opposite to each other is provided in the vicinity of at least one end of the multiple filling chambers chamber.

Attorney's Docket No. 1018793-000274 Application No. 10/516,351

4. (Currently Amended) The mat as claimed in claim 1 [[2]], wherein the sheets forming the multiple filling chambers chamber are a pair of opposite thermoplastic resin sheets which are heat-bonded along the contours of the multiple filling chambers chamber to define the multiple filling chambers chamber.

- 5. (Currently Amended) The mat as claimed in claim 1 [[2]], wherein flexible fins are provided which are extended outwardly form at least part of the margins.
- 6. (Currently Amended) The mat as claimed in claim 1 [[2]], wherein the heat medium is a warming material.
- 7. (Currently Amended) The mat as claimed in claim 1 [[2]], wherein the heat medium is a cooling material.
- 8. (Currently Amended) The mat as claimed in claim 1 [[2]], wherein the heat medium is a hydrogel.
  - 9. (Canceled)
- 10. (Currently Amended) The mat as claimed in claim 1, wherein the sheets forming the multiple filling chambers chamber are a pair of opposite thermoplastic resin sheets which are heat-bonded along the contours of the multiple filling chambers chamber to define the multiple filling chambers chamber.

Attorney's Docket No. <u>1018793-000274</u> Application No. <u>10/516,351</u>

- 11. (Previously Presented) The mat as claimed in claim 1, wherein flexible fins are provided which are extended outwardly from at least a part of margins.
- 12. (Previously Presented) The mat as claimed in claim 1, wherein the heat medium is a warming material.
- 13. (Previously Presented) The mat as claimed in claim 1, wherein the heat medium is a cooling material.
- 14. (Previously Presented) The mat as claimed in claim 1, wherein the heat medium is a hydrogel.
